

## INDEX

- A**BSORPTION, lymphatic, from serous cavities, 776.
- ABRAMSON, D. I. and K. JOCHIM. The pathway taken by the impulse in the mammalian ventricles, 257.
- Acetylcholine, action of, on cultures of chick heart, 314.
- action on turtle heart, 314.
- contracture of denervated muscle, 353.
- , effects of magnesium on production of, by motor nerve stimulation, 270.
- , effects of, on frog's ventricle, 314.
- , inotropic and chronotropic effects of, on chelonian heart, 315.
- Acetylcholine-like substance, formation of, by excised tissues, 306.
- Acids, organic, anticoagulative action of, 80.
- Acoustic pathways, distribution of, in medial geniculate bodies, 257.
- sensitivity after x-radiation of head, 13.
- ADAIR, G. S. See QUIGLEY, BARCROFT, ADAIR and GOODMAN, 763.
- ADES, H. W., F. A. METTLER and E. A. CULLER. Distribution of acoustic pathways in the medial geniculate bodies, 257.
- ADLER, H. F., E. L. BORKON and R. D. TEMPLETON. The comparative efficiency of oil and soap enemas in eliciting defecation in dogs, 258.
- Adrenal extracts, purification of, and isolation of activator of male sex hormones, 302.
- gland, insulin and, 539.
- insufficiency, alarm reaction theory of, 400.
- — and fluid distribution, 684.
- X zone andromimetic, 339.
- Adrenalectomized dog, water intoxication in, 557.
- dogs, 277.
- rats, metabolism of, 589.
- Adrenalectomy, effect of, on metabolic response of rat to cold, 339.
- — —, on ovulation and luteinization in anestrus cats, 312.
- , oestrus and lifespan after, 675.
- Adrenalin conjugates, ammonolyzed, and pressor action in dogs, 391.
- Adrenals of rats after thyroidectomy and gonadectomy, with pituitary histology, 426.
- Adrenin and sympathin, liberation of, induced by stimulation of hypothalamus, 615.
- Age, advancing, oxygen consumption with, 28.
- ALEXANDER, F. See SAUL and ALEXANDER, 396.
- ALLEN, L. and E. VOGT. A mechanism of lymphatic absorption from serous cavities, 776.
- — —. A mechanism of lymphatic absorption with special reference to serous cavities, 259.
- — —. Lymphatic absorption in excised tissue, 260.
- ALLEN, W. M. See HECKEL and ALLEN, 300.
- ALPERT, L. See GORDON, ALVING, KRETZSCHMAR and ALPERT, 483.
- ALT, H. L. See ANDERSON and ALT, 67.
- Alveolar CO<sub>2</sub>, a physiological variant, 370.
- — —, hunger and variations in, 7.
- ALVING, A. S. See GORDON, ALVING, KRETZSCHMAR and ALPERT, 483.
- American Physiological Society, Proceedings, 257.
- ANDERSCH, M. See FAY, GREISHEIMER, HAFKESBRING, ANDERSCH, KENYON, MACCALMONT, SHARPE and CORTELL, 306.
- ANDERSEN, D. H., M. R. PREST and J. VICTOR. Metabolic changes in liver, kidney and anterior hypophysis of

- pregnant, parturient and lactating rats, 445.
- ANDERSON, E. M. and H. M. EVANS. Marked thyroid hyperplasia without change in respiratory metabolism by the treatment of hypophysectomized rats with thyrotropic hormone, 260.
- ANDERSON, F. F. A new smooth-muscle bath, 260.
- ANDERSON, O. D. See LIDDELL, SUTHERLAND, PARMENTER, CURTIS and ANDERSON, 361.
- ANDERSON, R. K. and H. L. ALT. The effect of thyrotropic pituitary hormone on the oxygen consumption of thyroid tissue *in vitro*, 67.
- ANDREW, W. The effects of fatigue due to muscular exercise on the Purkinje cells of the mouse at various ages, 260.
- Androgenic substances, effects of, in hypophysectomized rats, 121.
- Androgens, effect of, on castrate white rats, 355.
- , efficacy of, determined by rat assay method, 354.
- Anemia, pernicious, rôle of upper gastrointestinal tract in, 262.
- Anesthesia, effects of, on dogs, 306.
- Anhidrosis, after interruption of various sympathetic pathways in man, 393.
- Anoxia in dogs, urine formation under, 127.
- Anura, comparative physiological development of, 426.
- Anuran larvae, action of hyoscine hydrobromide on, 425.
- Apnea from inflation of lungs, vascular changes during, 341.
- Arterial pulse, studies on, 297.
- Ascorbic acid during pregnancy in rabbit, 455.
- ASHMAN, R. and J. L. GOUAUX. A slow parasystolic focus with exit-blocking, 261.
- Asphyxia by illuminating gas, blood sugar during, 405.
- , effect of, on mammalian A nerve fibers, 111.
- ATKINSON, A. J. See CULMER and ATKINSON, 293.
- Auditory nerves, central differentiation of synchronized action potentials in, 409.
- B-HYDROXYBUTYRIC** acid, influence of dextrose and increased metabolism on utilization of, 278.
- BACHMANN, G., J. HALDI, W. WYNN and C. ENSOR. The respiratory quotient and carbohydrate utilization as affected by exercise taken immediately and thirty minutes after the ingestion of glucose and of fructose, 262.
- , See HALDI, BACHMANN, ENSOR and WYNN, 323.
- BACHRACH, W. H. and S. J. FOGELSON. Rôle of the upper gastrointestinal tract in the etiology of pernicious anemia, 262.
- Bacteria, osmotic and surface properties of, 329.
- BALDES, E. J. and J. F. HERRICK. A direct current thermostromuhr, 263.
- , —, —, Analysis of the Rein thermostromuhr method of measuring blood flow, 263.
- , See ESSEX, HERRICK, BALDES and MANN, 303.

Medical  
Notes

## CONTENTS

No. 1. MAY, 1937

Epinephrine and the Blood Sugar Level. <i>Cataldo J. Coletti, Jr.</i> .....	1
Pituitary Gland Influences on Water Balance in the Rat. <i>H. L. White</i> .....	5
Variations in Alveolar Carbon Dioxide in Man during Hunger. <i>Rolland J. Main</i> ...	7
Increased Acoustic Sensitivity in Dogs Following Roentgen-Radiation of the Hypophysis. <i>W. J. Brogden and Elmer Culler</i> .....	13
An Experimental Index of Erythropoietic Function in Rabbits. <i>Philip L. Kurtz</i> ...	24
The Effect of Advancing Age on the Oxygen Consumption of Rats. <i>J. E. Davis</i> ....	28
Oxidizing Enzymes in Brain Extracts. <i>M. B. Cohen and R. W. Gerard</i> .....	34
The Establishment of the Diurnal Temperature Cycle. <i>N. Kleitman, S. Titelbaum and H. Hoffmann</i> .....	48
Factors which Determine the Rate and Depth of Breathing. <i>Robert Gesell and Carl Moyer</i> .....	55
The Effect of Thyrotropic Pituitary Hormone on the Oxygen Consumption of Thyroid Tissue in Vitro. <i>R. K. Anderson and Howard L. Alt</i> .....	67
A Study of Hemolysis in Vivo by the Application of the Benzidine Micro-Colorimetric Method to the Determination of Free Hemoglobin in Plasma. <i>Daniel Melnick and George R. Cowgill</i> .....	70
The Anticoagulative Action of Organic Acids, and of Heparin and the Organic Base, Diethylamine. <i>Augustus Wadsworth, Frank Maltaner and Elizabeth Maltaner</i> ...	80
The Influence of Diet upon Urea Clearance in Dogs. <i>R. C. Herrin, Allen Rabin and R. N. Feinstein</i> .....	87
Effect of Baths at Different Temperatures on Oxygen Exchange and on the Circulation. <i>H. C. Bazett, J. C. Scott, M. E. Maxfield and M. D. Blithe</i> .....	93
The Effect of Asphyxia on Mammalian A Nerve Fibers. <i>Jørgen Erik Lehmann</i> ....	111
Effects of Androgenic Substances in Hypophysectomized Rats. <i>Eugene Cutuly, D. Roy McCullagh and Elizabeth C. Cutuly</i> .....	121
Urine Formation under Anoxia in Dogs. <i>L. A. Toth</i> .....	127
The Effects of Epinephrine on Urine Excretion in Dogs. <i>L. A. Toth</i> .....	140
Divided Dosage of Insulin. <i>Fritz Bischoff and Lillian M. Jemtegaard</i> .....	149
Direct Observation of Intrauterine Respiratory Movements of the Fetus and the Role of Carbon Dioxide and Oxygen in their Regulation. <i>Franklin F. Snyder and Morris Rosenfeld</i> .....	153
A Comparison of the Metabolic Effects of Subcutaneous and Intravenous Epinephrine Injections in Normal and Hypophysectomized Rats. <i>Jane A. Russell and Gerty T. Cori</i> .....	167
Nussbaum's Experiment on Renal Secretion. <i>Rudolf T. Kempton</i> .....	175
Electrical Activity of the Cerebral Cortex in the Unanesthetized Cat. <i>Margaret B. Rheinberger and Herbert H. Jasper</i> .....	186
The Effect of Heat on Blood and Lymph Flow from the Gastro-Intestinal Tract. <i>J. M. Beazell, C. R. Schmidt and A. C. Ivy</i> .....	197
The Relation Between Systemic and Pulmonary Blood Pressures in the Fetus. <i>W. F. Hamilton, R. A. Woodbury and E. B. Woods</i> .....	206
Cataleptic Symptoms Following Bilateral Cortical Lesions in Cats. <i>Ralph W. Barris</i> .....	213

## No. 2. JUNE, 1937

The Transmission of Impulses Through a Sympathetic Ganglion. <i>W. B. Cannon and A. Rosenblueth</i> .....	221
Curarization, Fatigue and Wedensky Inhibition. <i>A. Rosenblueth and R. S. Morison</i> .....	236
Proceedings of the American Physiological Society.....	257

## No. 3. JULY, 1937

Kinetics of Excretion and Utilization of Xylose. <i>R. Dominguez, H. Goldblatt and E. Pomerene</i> .....	429
Seasonal Variations in the Number of Platelets in Arterial, Venous and Cutaneous Blood of Man. <i>Leandro M. Tocantins</i> .....	439
Metabolic Changes in Liver, Kidney and Anterior Hypophysis of Pregnant, Parturient and Lactating Rats. <i>Dorothy H. Andersen, Margaret R. Prest and Joseph Victor</i> .....	445
Ascorbic Acid During Pregnancy in the Rabbit. <i>Gregory Pincus and James Berkman</i> .....	455
Enhancement of Muscle Contraction after Tetanus. <i>S. A. Guttman, R. G. Horton and D. T. Wilber</i> .....	463
The Effect of Protein Deficiency on the Course of Pregnancy. <i>Walter H. Seegers</i> ..	474
The Relation of the Size of the Meal to the Emptying Time of the Human Stomach. <i>Edward J. Van Liere, Clark K. Sleeth and David Northup</i> .....	480
Variations in the Extraction of Urea by the Kidney and Their Relation to the Amount of Urea Reabsorbed. <i>Wayne Gordon, Alf S. Alving, Norman R. Kretzschmar and Louis Alpert</i> .....	483
The Nervous Secretion of Saliva. <i>W. Horsley Gantl</i> .....	493
The Influence of Pseudopregnancy on Follicular Sensitivity to Pregnancy Urine Extracts. <i>George Louis Weinstein and A. W. Makepeace</i> .....	508
The Effect of Progesterin and Progesterone on Ovulation in the Rabbit. <i>A. W. Makepeace, George Louis Weinstein and Maurice H. Friedman</i> .....	512
Proprioceptive Respiratory Reflexes of the Vagus Nerve. <i>Ellis H. Steffensen, John M. Brookhart and Robert Gesell</i> .....	517
Is the Transmission of the Nerve Impulses to the Cat's Uterus Electrical or Chemical? <i>J. F. Ross</i> .....	527
Course of Blood Sugar after Insulin in Dogs and Cats. <i>T. F. Zucker and B. N. Berg</i> .....	531
The Rôle of the Adrenal Gland in Blood Sugar Recovery after Insulin Hypoglycemia. <i>T. F. Zucker and B. N. Berg</i> .....	539
A Study of After-Contraction. <i>M. R. Sapirstein, R. C. Herman and G. B. Wallace</i> .....	549
A Study of Water Intoxication in the Intact and Adrenalectomized Dog. <i>W. W. Swingle, W. N. Parkins, A. R. Taylor and H. W. Hays</i> .....	557
Fiber Action Potentials in the Spinal Cord of the Cat. <i>Howard A. Howe and Dean A. Clark</i> .....	567
Heme Containing Fractions of Blood as Related to the Augmentation of Pituitary Gonadotropic Extracts. <i>W. H. McShan and Roland K. Meyer</i> .....	574
Phasic Blood Flow and its Determinants in the Right Coronary Artery. <i>Donald E. Gregg</i> .....	580
The Metabolism of Adrenalectomized Rats. <i>C. Jelleff Carr and Frances F. Beck</i> .....	589
Glutathione in Frog Tissues with Special Reference to Peripheral Nerve. <i>Paul A. Nicoll</i> .....	593

Ptyalin Content of Saliva in Old Age. <i>J. Meyer, J. S. Golden, N. Steiner and H. Necheles</i> .....	600
Aspects of Splanchnomegaly Associated with the Action of Prolactin. <i>Robert W. Bates, Oscar Riddle, Ernest L. Lahr and James P. Schooley</i> .....	603
The Mechanism of the Anti-gonad Action of Prolactin in Adult Pigeons. <i>Robert W. Bates, Oscar Riddle and Ernest L. Lahr</i> .....	610
The Liberation of Adrenin and Sympathin Induced by Stimulation of the Hypothalamus. <i>H. W. Magoun, S. W. Ranson and A. Hetherington</i> .....	615
The Inhibition of Estrous Cycles in the Albino Rat by Progesterone. <i>William A. Phillips</i> .....	623
Chemical Study of Blood of Developing Chick. <i>Carla M. Zorn and Albert J. Dalton</i> .....	627
The Relation of Cyclic Changes in Human Vaginal Smears to Body Temperatures and Basal Metabolic Rates. <i>Boris B. Rubenstein</i> .....	635
Influence of Muscular Exercise on Renal Excretion. <i>E. R. Norris and R. S. Weiser</i> .....	642
The Effects of Sodium Deprivation on the Animal Organism. <i>Elsa Orent-Keiles, Aaron Robinson and E. V. McCollum</i> .....	651

## No. 4. AUGUST, 1937

Blood Pressure Studies in Small Animals. <i>R. A. Woodbury and W. F. Hamilton</i> .....	663
Effect of Oestrus (Pseudopregnancy) and Certain Pituitary Hormones on the Life-span of Adrenalectomized Animals. <i>W. W. Swingle, W. M. Parkins, A. R. Taylor, H. W. Hays and J. A. Morrell</i> .....	675
The Influence of Adrenal Cortical Hormone upon Electrolyte and Fluid Distribution in Adrenalectomized Dogs Maintained on a Sodium and Chloride Free Diet. <i>W. W. Swingle, W. M. Parkins, A. R. Taylor and H. W. Hays</i> .....	684
Brain Potentials during Sleep. <i>H. Blake and R. W. Gerard</i> .....	692
Superfecundity in Rats Treated with Mare Gonadotropic Hormone. <i>H. H. Cole</i> .....	704
The Removal of Intravenously Injected Bilirubin from the Blood Stream in the Dog. <i>Carl A. Dragstedt and Moore A. Mills</i> .....	713
Gastric Secretion in Ruminants. <i>D. L. Espe and C. Y. Cannon</i> .....	720
The Nervous Control of Pancreatic Secretion in the Dog. <i>Phoebe J. Crittenden and A. C. Ivy</i> .....	724
The Influence of Dextrose Administration on the Utilization of $\beta$ -Hydroxybutyric Acid by the Normal and Eviscerated Rabbit. <i>I. Arthur Mirsky and R. H. Broh-Kahn</i> .....	734
Time Relations in Renal Excretion of Threshold and No-Threshold Substances. <i>H. L. White and Thomas Findley, Jr.</i> .....	740
Paradoxical Effect of Intravenously Injected Sodium Cyanide in Small Doses on Heart Rate and Blood Pressure in Dogs. <i>Milton Mendlowitz and Gerhard Schauer</i> .....	749
An Intermediary Calcium Complex in Blood Coagulation. <i>John H. Ferguson</i> .....	755
The Difference in Potential Across Gastric Membranes and Certain Factors Modifying the Potential. <i>J. P. Quigley, J. Barcroft, G. S. Adair and E. N. Goodman</i> .....	763
The Physiology of Zinc in the Nutrition of the Rat. <i>E. Hove, C. A. Elvehjem and E. B. Hart</i> .....	768
A Mechanism of Lymphatic Absorption from Serous Cavities. <i>Lane Allen and Elkin Vogt</i> .....	776
The Influence of a Pancreas Extract ("Fat Metabolizing Hormone") upon Fat Deposition in the Liver on a Low Protein Diet. <i>Eaton M. MacKay</i> .....	783
Index.....	787
